**Portfolio:** <https://bit.ly/3HdEJyc>

As a highly motivated and innovative web developer, I harness my passion for the performing arts, photography, and astronomy to design dynamic web applications. My arts background inspires vibrant designs, my photography experience informs detail and composition, and my fascination with astronomy propels curiosity in exploring novel technologies. Committed to continual learning, I consistently deliver quality work under tight deadlines, melding artistic vision with technical skill to create engaging, functional websites. I eagerly look forward to leveraging my diverse skills and passions in a web development role.

## Projects

### EnCoded | <https://bit.ly/3oLilFX> | <https://github.com/therealsweven/magnificent-mustache-men> - Full-Stack Apr 2023

- I developed a niche job posting platform for the tech community, "EnCoded", enhancing the job search process with a user-friendly resume builder and job board.
- Utilizing HTML, React.js, Tailwind CSS, DaisyUI, Yup, GraphQL, MongoDB, PWA, and Heroku, the platform offers a targeted solution, catering specifically to the needs of tech professionals, and simplifying their job search journey.

### BetaTasters | <https://bit.ly/DevLore> | <https://github.com/hollyhlea/beta-tasters> - Scrum Master Apr 2023

- As Scrum Master, I led the development of "BetaTasters", a customer-centric web application for restaurants. This platform provides an innovative space for restaurants to showcase their menu items and receive real-time customer reviews, thereby optimizing the menu selection process for patrons.
- Leveraging Handlebars, Custom CSS, Bootstrap, JavaScript, MySQL, Sequelize, Express, and Heroku, we delivered a dynamic and interactive platform, improving the dining experience for both customers and restaurant owners.

### Javascript Quiz | <https://bit.ly/JsQuizlet> | [https://github.com/MMount98/Javascript\\_Quiz](https://github.com/MMount98/Javascript_Quiz) - Sole Author Feb 2023

- I authored a lively and engaging web application, similar to popular platforms like Quizlet and Kahoot!, dubbed "Javascript Quiz". The application tracks user performance, including wins, losses, and current scores, thereby providing users with an interactive and personalized experience.
- With HTML, CSS, JavaScript, and GitPages, this application showcases a balance of sound programming and user engagement, making learning fun and accessible.

## Skills

**Advanced:** HTML, Javascript, Node.js, SQL, GitHub

**Intermediate:** React.js, MongoDB, GraphQL, Bootstrap, Tailwind CSS, Heroku

## Leadership Experience

### Community Council President, Greeley, CO Aug 2019 - May 2020

- I took the lead in fostering a safe and inclusive environment for the University of Northern Colorado (UNCO) students, demonstrating strong communication and interpersonal skills for clear articulation of ideas and collaboration.
- I orchestrated over 12 community-centered projects, working with a diverse team to ideate, develop, and implement initiatives addressing student needs, exhibiting project management, and problem-solving skills.
- I oversaw and mentored a council of 10 team members, ensuring successful project completion through effective guidance and support.

## Education

### University of Denver, Denver, CO - Certificate of Completion Jan 2023 - Apr 2023

Full-Stack Web Development Three-month intensive course covering the key skills for front-end and back-end web development and a focus on MERN Stack

### University of Northern Colorado, Greeley, CO - Bachelor of Arts - Theatre Studies Aug 2016 - Aug 2020

Dean's List 2018-2020

## Work Experience

### Associate, It's Coffee, Centennial, CO Jan 2023 - PRESENT

- I cultivated a collaborative environment, enhancing open communication and teamwork - skills applicable to working within a development team.
- I managed operational processes, a skill parallel to managing various aspects of web development projects.
- I devised and implemented an innovative auditing method, improving process efficiency and accuracy, demonstrating problem-solving skills relevant to optimizing code.

### Shift Lead, Dutch Bros, Parker, CO Dec 2022 - Jan 2023

- I led and motivated a team of 20, demonstrating strong leadership skills that are relevant to team-based web development projects.
- I trained new employees, demonstrating an ability to disseminate complex information. I was promoted within a short time frame due to high performance and rapid skill acquisition.

### Floor Supervisor, Nordstrom, Lone Tree, CO May 2022 - Dec 2022

- I collaborated with over 30 clients to understand and meet their requirements, a skill crucial to implementing client specifications in web development.
- I oversaw visual merchandising, showcasing an eye for aesthetics in designing visually pleasing UI.
